Day 15

That day I could not sleep, I was trying to sleep but every time I closed my eyes I just wanted to open them up again, so I started to watch The Office and then I realized that it was time to get ready for class. To be honest I was getting tired during class but I knew I had to be awake and the weird part was that when the class ended I could not sleep. My friends were sending me messages about going out to eat since it's been weeks when we last saw each other but they were not saying yes or no because we would get off track from the conversation. So I decided to sleep and I set my alarm around 3 PM then the next thing I had about 20 missed calls from them and it was 4 PM then started to get ready, it was funny. We went to eat Cane's and just hanging out. I went back home and I ended my day with doing homework.

Day 19

Its Friday but it does not feel like it because we are always at home and we don't enjoy Fridays like before the Coronavirus. I overslept again and woke around 1 PM, I thought I was late for class but it was just office hours, I was laughing. Then at night one of the novelas we watch, the third season ended it was okay, we thought it was going to end differently.

Day 20

My parents went out to store and they brought a new refrigerator to store soft drinks and juice, we were surprised. The Office was sad because there was an episode that was just so sad, I was talking to Aby about it and she also thought it was sad. In the afternoon, my family was watching a movie I don't know what was called because he was sleeping and just watched the end of the movie.

Day 21

I was preparing myself for the presentation we are having tomorrow and I was doing more homework. I saw a movie called Miracle in Cell 7, my friends recommended it and it was good, they said they were crying while watching it. This week I did not do much only doing on my homework, hopeful next week is different.
