Signe's Scrapbook

I made a dark scrapbook with all of the horrors of 2020 (based off of the netflix comedy)

DEATH TO 2020

Jude's Video Game Project

In 2020 there have been many different hobbies people are trying, for me I focused on video games. Video games are something many kids from 5-18 enjoy, these are what the AVS middle school kids listen to. The most popular game is Minecraft with 11 students playing it.

Eva's Movie Project

I made an image out of clay to sum up what quarantine felt like to me. I chose a TV and a remote. The TV is on the left and the remote on the right. Before quarantine, I felt like I was having family movie night once or twice a month. But now, during quarantine, I watched an eleven season show in two months!!!!

I made a google form to see if people were watching more like me and 56.3% said they were watching a movie a week. Also, in another question, 45.5% said they were watching a lot more movies now the coronavirus pandemic has hit.
