Reposting - from a member

As promised, we have created a way for families who are solely interested in a parent run co-op to connect! This is separate from our remote learning program run by teachers and tutors. As parents and teachers in this community, we know how hard this all is (on so many levels!) and we want to support families as best we can. We hope this is a good start!

Fill out the correct spreadsheet for your child's grade level and then we will make sure you have a coordinator for each grade before we hand over all the information. We ask that any family co-ops that form through this understand that we are not responsible and release liability for anything related to these groups. We also urge you to carefully follow any and all guidelines from the CDC regarding Covid-19 when forming your co-op. Good luck!
