

Pandemic Birthday at the Aquarium

Last October 2020 I celebrated my 22nd birthday. Between COVID-19 and the death of my father, my birthday wasn't high on my list of things to prioritize. However, my family and I decided last minute to go to Mystic Aquarium in Connecticut as it is one of my favorite places & they had socially-distant protocols in place. I enjoyed seeing the belugas, seals, penguins, and jellyfish in a safe and distant manner.
